Founded 1992 near Muenster, North Rhine Westfalia, alternative five piece Royal Incest recently finished their work on the third full length baby „Queen of drama“, to be released on May 21st, 2021.

Nine great brandnew heavy, sometimes elegic or edgy emotional tunes, well cooked by punk & indie rock engineer Gen Skreegl (Addicted to Machines, Slup), have been combined to this outrageous album. The powerful vocals of shouter and guitarist Johannes Hofmann, the heavy steams of the second and third guitar wizards Karl Funnemann and Claus Stephan, the rhythm section around around Christoph Linhoff (bass) and Dominik Lenz (drums) thereby blow the listener away. As far as you cannot see them live right now, the new album is recommended by us as Must have on vinyl or as digital version on CD or download / stream for now. Enjoy...

Recorded and Mixed by Gen Skreegl @ D.I.Y. or DIE Studio. Mastered at Silvertracks.
Produced by Royal Incest and Gen Skreegl.
